Summary

Full Stack Drupal Developer with expertise in building and maintaining scalable CMS solutions using Drupal. Proficient in PHP, Twig templating, MySQL, and Git, with hands-on experience in developing custom modules, implementing RESTful integrations, and optimizing performance. Skilled in creating efficient backend logic, crafting responsive UI/UX using HTML, SCSS, and Bootstrap, managing databases, and enhancing internal platforms with a strong focus on clean maintainable code and seamless user experience. Passionate about delivering robust, high-quality web applications.

Technical Skills

Frameworks/CMS: Drupal 8, Drupal 9, Drupal 10
Backend: PHP, Twig Templating
Frontend: HTML, CSS, SCSS, Bootstrap 5, JavaScript, jQuery
Databases: SQL, MySQL
Cloud: AWS (EC2, S3, IAM, RDS, CloudFront)
DevOps: Docker
Developer Tools: Git, Composer, Jira, Postman
Other: REST APIs, Agile methodologies

Experience

Xoriant Solutions Pvt. Ltd. **July 2021 – Present**
Software Engineer *Pune, Maharashtra*

- Designed and developed **30+ custom Drupal 8/9/10 modules** for an enterprise-grade web application, optimizing business workflows and enabling seamless collaboration across distributed teams.
- Designed and built **RESTful APIs** to enable seamless data exchange between Drupal and external systems.
- Worked extensively on the backend, implementing complex **business logic, database structures, and API integrations** to ensure seamless data exchange with external applications.
- Upgraded enterprise Drupal applications from **Drupal 8 to Drupal 9**, ensuring compatibility with updated core APIs, deprecated modules, and PHP versions.
- Refactored and updated custom modules to replace deprecated functions and align with **Drupal 9 coding standards**.
- Worked on Drupal applications hosted on **AWS (EC2, RDS MySQL, S3)** with **CloudFront** for improved asset delivery.
- Managed and optimized **MySQL databases**, improving query performance and overall application speed.
- Worked on the frontend, developing custom themes and templates using **Twig, HTML, CSS, and JavaScript**, ensuring a seamless and responsive UI.
- Integrated modern frontend technologies such as **jQuery and AJAX** to enhance user interactions and improve the overall UX.
- Developed a **Proof of Concept (POC)** for secure file handling, allowing users to download **encrypted zip files**, decrypt them, and convert them into different formats using **PHP and encryption libraries**.

Phoenixgen Systems Pvt. Ltd **May 2020 – November 2020**
Software Developer Intern *Pune, Maharashtra*

- Developed the front-end of a mobile application for iOS/Android using Dart and the Flutter framework.
- Worked with Google Firebase to manage user inputted data across multiple platforms including web and mobile apps.

Education

G.H Raisoni College of Engineering and Management **July 2017 – June 2021**
Bachelor of Technology in Computer Science, CGPA: 9.06 *Pune, Maharashtra*

Awards and Achievements

XorChamp **2024**
Software Engineer *Xoriant Solutions Pvt. Ltd.*

- Recognised for the best performance for the period (April 2024 - September 2024)

XorSuperSquad **2023**
Software Engineer *Xoriant Solutions Pvt. Ltd.*

- Won the team award for outstanding performance for the period (July 2023 - December 2023)
